Hiring Manager

Dear Hiring Manager,

I am writing to express my interest in the Systems and IT Auditor position at Addis International Bank S.C as advertised. With a Bachelor's degree in Computer Science from Hawassa University, combined with hands-on experience in network engineering and a diverse set of certifications, I am eager to contribute to your team and help drive innovative solutions in network infrastructure.

My professional journey began with an internship at Symbol Technologies PLC, where I specialized in network security engineering. During this time, I gained valuable insights into securing enterprise networks and troubleshooting complex issues. Building on this foundation, I have spent the past year at IE Network Solutions PLC as a Junior Enterprise Network Engineer I. Here, I honed my skills in preparing bid response documents, designing network solutions, and creating detailed documentation, including Low-Level Designs (LLDs) and High-Level Designs (HLDs).

In my current role, I am responsible for both presales and deployment engineering tasks. I excel in crafting comprehensive solutions tailored to client requirements, ensuring that our network designs align with industry best practices and meet client expectations. My experience also includes configuring and deploying Cisco networking equipment, such as access switches, core switches, and wireless controllers, as well as implementing VPNs between headquarters and branch offices.

My technical skills are further complemented by a robust set of certifications, including Fortinet NSE1, NSE2, NSE3, Poly Real Connect for Office 365, CCNAV7, and several advanced technical and sales certifications. These credentials validate my expertise and commitment to staying current with industry trends and technologies.

I am particularly drawn to Addis International Bank S.C. I am confident that my background, technical acumen, and proactive approach to problem-solving make me a strong candidate for this role. I am eager to bring my experience to your team and contribute to Addis International Bank S.C's continued success.

Thank you for considering my application. I look forward to the opportunity to discuss how my skills and experiences align with the needs of your team. Please feel free to contact me at +251 919 393 210 or via email at gmnetwork21@gmail.com to schedule a conversation.

Sincerely,

Belete Misgan Mengie
